The City of Hot Springs
Stormwater Division
PO Box 700
Hot Springs National Park
Arkansas 71902

DID YOU KNOW? As of January 1, 2007, the City of Hot Springs now requires a person who has attended and passed the CHS Stormwater Site-Inspector Certification Class for each construction site requiring a CHS Stormwater Permit.

The CHS Stormwater Division is now offering a Stormwater Site-Inspector Certification Class. The certification class is required of all personnel in charge of inspecting and maintaining stormwater controls on a construction site.

The class will consist of regulations and requirements, erosion and sediment controls (BMPs), illicit discharges, tree preservation, inspection procedures, and exam. Passing grade of 80% must be obtained to receive a 2 year stormwater certification card.

The cost of the Certification Class is \$100
Class cost for Recertification \$50
