I understand the meter set will not be issued until a plumbing permit is obtained, and approved plumbing inspection is completed. All construction must meet fire protection and plumbing codes, and where city sewer is not available a septic approval letter must be provided. Applicant hereby certifies that the proposed connections are for a single family residence. If all conditions for approval are met, then I understand that the water meter will be a 5/8 inch meter and the sewer service will be a 4 inch connection for gravity sewer or a simplex grinder pump for pressure sewer.
